

OPPORTUNITIES TO PRAY

Prayer should be part of the everyday life of every Christian. Sometimes we pray together in church and classes but, in addition, we all should have those times when we pray privately our own prayers and with our family and with a small group. In this exercise, mark with an X those prayer opportunities you are now engaging in, and if you want to seek to do better with those prayers, add a plus sign. Mark those with a check which you would like to add to the praying you now do. As you think about the congregational ones, ask yourself if you are thoughtfully engaging in these prayers.
